Hay Making

- **What drives the customer choice in package type?**

- Investment
- Labor
- Storage
- Transportability

Decision Factors	Investment	Labor	Storage	Transportability
Small Square	M	H	H	H
Large Square	H	M	M	H
Round Bales	L	L	L	L
Silage and Haylage	H	M	H	M

7. TRANSPORT AND STORAGE

Silage is fermented, **high-moisture forage** to be fed to ruminants like cattle and sheep.

Baylage is a form of stored forage. In this case hay, alfalfa or grass is cut and baled while still fairly wet. The bales are wrapped tightly in plastic wrappers.

7. TRANSPORT AND STORAGE

- **Round Bales**

- ▶ Farm Loader
- ▶ Tractor 3 point hitch
- ▶ Skid Steer Loader
- ▶ Telehandler
- ▶ Bale Carriers
 - Stored in Barn or Left in Field

- **Large Square Bales**

- ▶ Farm Loader
- ▶ Telehandler
- ▶ Bale Carrier
 - Stored in Barn
 - Stacked in Field

- **Haylage and Corn Silage**

- ▶ Forage Box Wagon, Truck, Dump Wagon
 - Upright Silo
 - Bunker/stack

- **Small Square Bales**

- ▶ Farm Loader
- ▶ Bale Carrier
 - Stored in Barn
- ▶ Bale Wagon

1. END USE

- Dairy Cattle
- Beef Cattle
